Art Unit: 2773

DETAILED ACTION

1. Claims 1-43 are pending in this application. Claims 1, 21, 42 and 43 independent claims.
2. The present title of the inventions is "Apparatus and Method for Handling Special Windows in a Display."

Election/Restriction

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a. Species I, figs. 2, 3, 5, 7a, and 9, is directed towards a key signal format from a VRAM: **claims 8-12, 28-32, and 41**, 345/501
- b. Species II, figs. 4, directed toward an apparatus for displaying data content: **claims 13-15 and 33-35**, 345/339
- c. Species III, fig. 6, directed toward control for pixels and lines: **claims 16-20 and 36-40**, 345/501.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, **claim 1-7, 21-27 and 42-43** are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2773

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. A telephone call was made to Mr. Gregory J. Koerner on 1-6-00 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas Joseph whose telephone number is (703) 305-2277. The examiner can normally be reached on Monday through Friday from 7:30 pm to 4:00 pm.
